

Missed Concert Performance Alternate Assignment Options

Write a well-written, two-page paper (double spaced) on ***one*** of these topics:

1. Why is music important? Think about what it means to you, to society, to education, etc. What are some of the ways that people (including you) experience music on a daily basis and how does it affect us as human beings?
2. Write a self-evaluation of your performance this year in band. What were some things that you did well? What can you improve upon and how will you go about it? What, if anything, would you change? What did you enjoy / not enjoy and why?
3. Write a report on the composer of a piece that the ensemble performed. This option should be more than basic overview of the composer's life, schooling, notable compositions, etc. You should also research and listen to 2 other pieces written by the composer and compare and contrast them to the piece that your ensemble played.
